In representation of this Sangha in Santiago of Chile, South America, I present my deep thankfulness for the magnificent opportunity to be part of the Celebration of Vesak 2011 and my sincere recognition to all those involved in its organization.

May this unique occasion on the 84th Birthday of His Majesty The King Bhumibhol Adulayadej of Thailand along with the Blessings of Lord Buda guide us into an enlightened process to come to meaningful proposals and solutions to the current global circumstances of our Mankind through the path of Buddhism.

May the outcome of this Meeting be of inner motivation towards the recovery and sound evolution of our Peoples and our beloved Earth.

May all sentient beings join their wisdom in benefit of our sacred Life

Que todos los seres sintientes unan su sabiduría en beneficio de nuestra Vida sagrada
